

## Exxon Valdez Trustee Council HABITAT PROTECTION PROGRAM OVERVIEW

**LEGEND**

Oil Spill Area Boundary	Large Parcels	Small Parcels
-------------------------	---------------	---------------

Federal Lands	State, Municipal or Private Lands
National Forest	State Lands
National Parks	State Parks
National Wildlife Refuges	Municipal & Private Lands
Bureau of Land Management	Native Lands
	State & ANCSA Land in Same Section

This map depicts the general location of Trustee Council-funded Imminent Threat, Large Parcel and Small Parcel acquisitions. Acquisitions depicted include fee simple acquisitions, conservation easements, and timber easements. All fee acquisitions provide for public access as do many of the conservation easements. All small parcels were acquired in fee. Additional details regarding these acquisitions, including a description of the rights acquired, can be found in "Exxon Valdez Oil Spill Restoration, Habitat Protection & Acquisition Catalog," prepared for the Trustee Council, February 2007.

This map is a representation of habitat protection acquisitions. For specific legal descriptions and rules and regulations related to use of these lands, consult the appropriate land manager.
